

SAAD IMRAN

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Islamia Park, Lahore, Pakistan | saadimran936@gmail.com | +92 3354747057 | Languages: English, Urdu

Portfolio: portfolio-new-frontend.vercel.app | **LinkedIn:** <https://www.linkedin.com/in/saad-imran-it->

Results-driven **Software Engineer** and **Information Technology** graduate (BS IT, 2025) with strong expertise in **full-stack** application development, **backend** systems, **APIs**, **authentication**, databases, and scalable software architecture. Currently working in AI & Analytics in the banking sector, leveraging Python automation, Power Bi Dashboards, ETL pipelines, and enterprise data systems to support data-driven decision-making.

Selected nationwide for the Technology Batch at The Bank of Punjab and secured **2nd position** in training, demonstrating exceptional technical, analytical, and problem-solving abilities. Experienced in building secure, scalable, and user-focused software solutions across **web**, **AI**, and enterprise systems with hands-on expertise in **MERN Stack**, **Python**, databases, and software engineering principles.

PROFESSIONAL EXPERIENCE

Data Analyst (AI & Analytics)

Dec 2025 – Present

The Bank of Punjab Head Office, Lahore

- Extract, transform, and analyze enterprise **banking data** to support business intelligence and operational decision-making.
- Design and develop interactive dashboards and reports using **Power BI** for data visualization and performance monitoring.
- Automate repetitive workflows and reporting tasks using **Python scripts** and **ETL pipelines** to improve efficiency and reduce manual effort.
- Research **machine learning** and **data warehousing** solutions to support data-driven innovation in the banking sector.

Management Trainee Officer – Technology

Nov 2025 – Dec 2025

The Bank of Punjab, Lahore

- Selected from candidates across **Pakistan** for the **Technology Batch** at The Bank of Punjab.
- Secured **2nd position** in the Technology Training Batch, demonstrating strong technical and analytical excellence.
- Gained exposure to enterprise banking systems, **financial technologies**, **software systems**, and **digital banking** workflows.
- Rotated across technology and operational departments to understand end-to-end banking architecture and business systems.

MERN Stack Developer

Jan 2025 – Sep 2025

Freelance & HiSkyTech, Lahore

- Designed and developed scalable **full-stack web applications** using **MongoDB**, **Express.js**, **React.js**, and **Node.js**.
- Built secure **REST APIs**, **integrated databases**, and implemented **authentication** and authorization mechanisms.
- Developed responsive and modern **frontend interfaces** using **React.js**, **Next.js**, and **Tailwind CSS**.
- Designed **backend systems** with focus on performance, maintainability, and scalability.
- Delivered client-focused software solutions while meeting project timelines and technical requirements.

EDUCATION

Bachelor of Science in Information Technology (BS IT) University of Management and Technology (UMT), Lahore CGPA: 3.82 / 4.00	2021 – 2025
Intermediate in Science (FSc Pre-Engineering) (824 / 1100) (A Grade) Punjab Group of Colleges, Lahore	2018 – 2020
Matriculation in Science (896/ 1100) (A+ Grade) M.N Education Campus	2016 – 2018

TECHNICAL SKILLS

Front-End Technologies (HTML, CSS, JavaScript, React, Next.js, Tailwind) REST APIs & Backend Development (Node.js, Express.js, PHP,Flask,Django) Database Design (SQL Relational, MongoDB) Programming OOP & DSA (C++, Java, JavaScript) Python (Pandas, Numpy, Tensorflow), ETL Concepts, Power BI for AI/ML & Data Analytics Networking & Cybersecurity (Firewalls, Encryption, Network Security Basics) - Tools: Git/GitHub, MS Office - Operating Systems: Windows, Linux - Prompt Engineering (Expertise in Prompt Engineering with coding agents and LLM's)	
--	--

PROJECTS

AI Interviewer Platform (Voice-Based AI Interview System) - Developed a voice-based AI interviewer application capable of generating and conducting interviews dynamically based on job role, level, and job description. - Integrated speech recognition and conversational AI for real-time interview interaction and evaluation. - Built using React.js, Tailwind CSS, Fast API, LLMs, MongoDB, TTS, STT	
Game Accounts Trading Platform (GTrade) – Final Year Project - Developed a platform for secure trading of gaming accounts. - Implemented a Escrow Payment, Dispute Resolution and Prize Forecasting to minimize scams and ensure trust between buyers and sellers. - Built using Flutter, Dart, Firebase, Next.js, and Python (Mobile Application). - Focused on user security, responsive design, and smooth transactions.	

COURSES & CERTIFICATIONS

Advanced Python Programming & Applications – Excellence Delivered Institute (1st Sep 2025 – 15th March) Web Development – DigiSkills (Jul 2023 – Oct 2023) Freelancing – DigiSkills (Jul 2023 – Oct 2023)	
--	--

AWARDS & ACHIEVEMENTS

2nd Position – Technology Training Batch, The Bank of Punjab (Shield of Appreciation) Selected Nationwide for Technology Batch – The Bank of Punjab Rector Merit Award – Outstanding Academic Excellence, UMT Dean Merit Award – Outstanding Academic Excellence, UMT	
---	--

CERTIFICATIONS & PARTICIPATIONS

Certificate of Participation – Cybersecurity Bootcamp Certificate of Appreciation – Orientation Leader, Orientation Fall 2025, UMT Certificate of Participation – Marketing Project Showcase, UMT (in collaboration with BrandXhibit & Alkhidmat)
